

Directions on How to Use Technology

Students will need to have access to a computer lab to complete this activity. Students can access the website at

<http://www.mathplayground.com/SaveTheZogs/SaveTheZogs.html>.

Feel free to project or print the QR code for students to access the website. When on the website, the directions to the game are on the homepage. The idea is for the students to either select equations corresponding to the linear relationship they see or draw in the line for the students on the graph. Sometimes the “Next” button needs to be pressed twice when starting a new level.
